## KEEP WAGE SCALE UP.

Losing Strike Better Than None Says Gompers.

Advises His Followers to Fight Any Proposed Reduction.

Ten Thousand Men Idle in Colorado Coal Fields—Steel Workers Laid Off.

(BY THE ASSOCIATED PRESS.—A.M.)  
BOSTON, Nov. 9.—With an assembly of delegates numbering nearly five hundred, the American Federation of Labor today opened in Faneuil Hall its twenty-third annual convention. President Gompers called for a resolution in order. The adoption of a resolution that the delegates while in Boston purchase newspapers from the Boston union newsboys, was followed by a series of resolutions bearing upon union cigars, union-made clothing and other like matters. These motions were declared to be out of order. At the afternoon session President Gompers delivered his annual address.

President Gompers reported that never before has there been such uniform growth in unionism as during the past year. The American Federation of Labor has issued new charters as follows: International unions, 20; State federations, 2; central labor unions, 17; local trade unions and federal labor unions, 11,388. The gain in membership has been 44,100. Under the head of "Industrial Activity and Reaction," President Gompers said:

"There are indications that the era of industrial activity which we have enjoyed during the past few years has reached its flood tide, and that there is now somewhat of a reaction. Already we see some contraction of industry by which unemployment have increased. It is true that the change is not pronounced, but it is sufficiently evident for notice and deserves our consideration. More especially should this receive our attention since, quite recently, acting upon the cue given by our most pronounced antagonists, the capitalist press has endeavored to place upon our movement the responsibility for the industrial reaction."

"Of course, to the thinking, observing men, the insinuation or charge will have no effect. We understand, as every student and intelligent trade unionist understands, that periods of industrial activity and stagnation are equally natural. That a reaction did not set in sooner or that it has not become acute, is due to the fact that the cause to be organized labor movement."

"Our movement has increased wages, shortened the hours of labor, and otherwise improved the conditions of the toilers. In other words, we have made workers greater consumers of the things that have been produced."

"At this time it is difficult to foresee the extent to which the industrial reaction may reach, although it is quite evident that it is not likely to become so prolonged or so intense as previous periods of depression and crises. Yet it is well for us to view the situation as it is, and as it may become, and to consider calmly the course which we should pursue in order to avert it."

"It is the light of economic wisdom to curtail the consuming power of the masses as a means to industrial revival of prosperity."

"The workingman should resist any attempt to reduce their wages or to increase their hours of labor. We are better organized and better prepared to resist encroachments upon our condition than ever before; and, if perchance some of our efforts may not result in all, for to complain is not to resist; for to complain is simply to invite its repetition while it enfeebles our ability to resist further efforts in the same direction."

nothing whatever about it. There is not a bit of truth in it, so far as I am concerned, and that is all there is any need of saying about it."

Four Per Cent. Reduction.  
READING (Pa.) Nov. 9.—A notice was posted today at the tube mill of the Reading Iron Company that the wages of the employees would be subjected to a reduction of 4 per cent.

Cut in Wages.  
LANCASTER (Pa.) Nov. 9.—Notices were posted today at the mills of the Susquehanna Iron and Steel Company at Columbia, Pa., November 22, wages of puddlers will be reduced from \$1.50 to \$1.40, and those of other workmen in proportion.

COAL MINERS' STRIKE ON IN COLORADO.

OVER TEN THOUSAND MEN IDLE IN CENTENNIAL STATE.

United Mine Workers Providing Tickets for Many of the Strikers and Sending Them to Other Fields—Military Ready for Service.

(BY THE ASSOCIATED PRESS.—P.M.)  
DENVER, Nov. 9.—More than 10,000 coal miners in Colorado went on strike today for an eight-hour day, increased wages and other concessions. The strike was ordered by the national executive officers of the United Mine Workers of America after the coal companies refused to confer with union representatives concerning the demands of the men.

Of the idle men, 6,000 are in the southern coal fields, 2,000 in the northern coal fields and 1,000 in Fremont county. One hundred miles have been closed down. A few independent properties in the northern coal fields and elsewhere will not stop work, since the operators have agreed to concede the eight-hour day and also increased wages. Practically all of these properties have been taken up by the action of the miners. However, they are making efforts to continue operations under the protection of a strong guard. It is estimated that there are about 140 coal mines in the state, with an output of 4,000,000 tons a year and about 1,000,000 tons of coke.

It was the policy of the United Mine Workers to depopulate the various coal districts by sending the idle men and their families to Illinois, Ohio, Pennsylvania, Iowa and other States where work could be secured for them. Some 5,000 faces to Illinois States had already been arranged for by the United Mine Workers and today hundreds of the strikers are on their way to the northern fields. The storm centers will be Trinidad in the southern fields, where the number of idle miners and their families is the largest. At Trinidad, where the Victor Coal Company employs 2,500 men, it is reported that 1,000 were working today. Both places are strongly guarded, and strangers are not allowed to enter.

General Manager James F. Welborn of the Colorado Fuel and Iron Company, who has been in charge of the company's operations since the strike, said today that the company would continue to operate its mines, and the public need have no fear of a shortage of coal. He said the office of the Victor Fuel Company was in operation and would continue to be operated in the northern fields. He said the company's operations in the northern fields were being conducted in a normal manner. He said the company's operations in the northern fields were being conducted in a normal manner.

WEDDING FOR SANTA BARBARA.  
Miss Maude Gladys Hamilton, who started for California Sunday with her mother, Mrs. Chalkley Hamilton, will be married at Santa Barbara December 2 to Walter Kirk.

RIVAL FOR LA FOLLETTE.  
(BY DIRECT WIRE TO THE TIMES.)  
MADISON (Wis.) Nov. 9.—(Exclusive Dispatch.) The State Journal today in a double-column editorial lauded the name of Judge Bauch of Manitowish as a stalwart candidate for Governor against Gov. La Follette.

FIGHTING PARCEL LAW.  
(BY DIRECT WIRE TO THE TIMES.)  
IOWA FALLS (Iowa) Nov. 9.—(Exclusive Dispatch.) Maintaining that the passage of a parcel post law will drive the country grocer out of the map, the Retail Grocers' Association of the State will use its influence against the adoption of such a statute. An effort will also be made to place on the statute books a law prohibiting trading stamps and similar schemes.

SURPRISE VISIT BROUGHT DEATH.  
(BY DIRECT WIRE TO THE TIMES.)  
KOKOMO (Ind.) Nov. 9.—(Exclusive Dispatch.) Mrs. John Vandiver of Greensburg, Ind., was killed by the surprise visit to her daughter, Mrs. Joel Porter, and was carried to the residence a corpse. She was 70 years old.

today for immediate delivery. The supply of anthracite coal is exhausted and complaints are being received from coal buyers subject to two weeks delay in delivery.

The railroad companies claim to have enough coal stored to meet all their requirements for some time. The Southern Railway reported to have confiscated nearly 1000 tons of coal which had been loaded last week and were standing on sidings. Sheriff Clark of Las Animas county has enrolled sixty-six deputies. A special from Trinidad says that since Saturday night nearly two thousand non-union miners have joined the unions in that district.

A special to the Republican from Boulder, Colo., says the electric light and power company will furnish light for the city and operate the street-railway system announced today. The street railway will be shut down on account of the threatened coal famine. The lighting plant will be kept running.

THEODORE ROGERS.  
NEW YORK, Nov. 9.—Theodore Rogers, former president of the Bank of the Metropolis, is dead from paralysis at his home in Jamaica, L. I. He was 72 years old and leaves a fortune of several million dollars. Rogers began his business career as a clerk in the Metropolis a few months ago, owing to ill health.

JAMES L. BENTLEY.  
SAN JOSE, Nov. 9.—James L. Bentley, a brother of Rev. Robert Bentley, died in this city yesterday, aged 48 years. He was a native of Illinois and came to the Coast six years ago, after engaging in newspaper work in Chicago. He was connected for a time with the local press here, and was also secretary of the San Jose Chamber of Commerce. He was a member of the San Jose Chapter of the Order of the Elks.

BARON ROTON.  
LONDON, Nov. 9.—Montague William Lowrey-Corbin, first Baron Roton, is dead. He was born in 1833.

FRANK W. TRACY.  
SPRINGFIELD (Ill.) Nov. 9.—Frank W. Tracy, president of the First National Bank of Springfield, and a member of the National Bankers' Association, died of a complication of diseases, aged 69 years.

HELENA (Mont.) Nov. 9.—Charles Connon, a well-known mining man, is dead. He was a native of Illinois and discovered the Stray Horse Mine, which he afterward sold for \$60,000.

PLOT AGAINST FERDINAND.  
VIENNA, Nov. 9.—Private telegrams received here from Sofia say that several Bulgarians are plotting against the Emperor Ferdinand. The plot is said to be a conspiracy to assassinate the Emperor and his family.

FIRE AT PORTLAND, ME.  
PORTLAND (Me.) Nov. 9.—Fire today destroyed a large building on the waterfront. The building was owned by the Portland Steamship Company and was used as a warehouse for coal.

INFLAMMATION DIMINISHING.  
BERLIN, Nov. 9.—A bulletin from the Imperial German government today said that the inflammation of the lungs, which had been feared, was diminishing. The Emperor's condition was said to be improving.

JOHN ROSS' PECULIAR FUNERAL.  
(BY DIRECT WIRE TO THE TIMES.)  
ELKHART (Ind.) Nov. 9.—(Exclusive Dispatch.) In accordance with his will, the body of John Ross, the wealthy brick manufacturer, who died Friday, was not taken into church, the services there following the interment. An ordinary brick wagon was used, instead of a hearse, to convey the remains to the cemetery.

CAN SAVE BY FRANCHISE.  
(BY DIRECT WIRE TO THE TIMES.)  
OSHKOSH (Wis.) Nov. 9.—(Exclusive Dispatch.) It is reported that the Fond du Lac-Oshkosh Electric Railway Company has purchased a franchise. The company is planning to build a line between the two cities.

BACKS OUT AT ALTAR.  
(BY DIRECT WIRE TO THE TIMES.)  
OMAHA (Nebr.) Nov. 9.—(Exclusive Dispatch.) Clyde Miller, a Nebraska City youth, caused a sensation last evening by declining at the last moment to marry Miss Anna Spangler. The church was crowded, and the girl was left a spinster.

WOMEN PICKET AT SALOONS.  
(BY DIRECT WIRE TO THE TIMES.)  
CARLISLE (Ill.) Nov. 9.—(Exclusive Dispatch.) Yesterday, the members of the Women's Christian Temperance Union picketed the saloons in the vicinity of the city hall. The women also kept watch over a gambling house. No drink was sold, nor a game of poker played in the village. The women made this move because the village board refused to order the saloons closed Sunday, and they say the guard duty will be kept up unless the law is enforced.

## FEAR KISER HAS CANCER.

Surgeons May Be Concealing Nature of Trouble.

Operation Similar to First One Performed on His Father.

He Makes Light of the Matter and Commends to Attend to Public Business.

(BY THE ASSOCIATED PRESS.—A.M.)  
NEW YORK, Nov. 9.—Information contained in private dispatches received here shows that the operation on Emperor William is similar to the first operation performed on his father and consequently causes concern to his household. The official statement issued by the surgeons fails to reassure, because it is well understood that for reasons of state the Emperor would be given the benefit of any doubt as to the true character of his disease.

It is recalled that the surgeons at that time made nothing of the first operation on Emperor Frederick. There is anxiety because both Emperor William's father and mother died of cancer and his grandmother, Augusta, also was so afflicted. The Emperor's aunt, the Grand Duchess of Baden, as is well known in Germany, is suffering from the same ailment.

It will take months to decide whether the fears now entertained are unfounded. At present the whole weight of scientific authority which is in attendance upon the Emperor affirms that he has no cancer.

REASSURING STATEMENTS.  
(BY THE ASSOCIATED PRESS.—A.M.)  
BERLIN, Nov. 9.—Prof. Bernhard Fraenkel, the eminent throat specialist of Berlin University, in an interview today with the correspondent of the Associated Press, said:

"The public concern about the Emperor's condition is unwarranted. The facts are absolutely as stated in this morning's bulletin. The people are only agitated because they remember that the Emperor's father, Emperor Frederick, did not disclose his true malady, but this time the bulletin is clear. You can measure America."

Prof. Johannes Orth, the famous cancer specialist, who succeeded the late Prof. Virchow in the chair of pathological anatomy at the University of Berlin, says: "I authorize you to declare as explicitly as possible that the Emperor's condition is not a dangerous formation exists. It is a matter explained in any ordinary laryngological book. With persons who, like the Emperor, are afflicted by their professional duties to speak often in public, there are often frequent colds, and these colds, which may polypus. They are, of course, a hindrance to the voice, and accordingly the Emperor's condition is not a dangerous formation exists. It is a matter explained in any ordinary laryngological book. EMBER 10, 1903.

# A FOREBODING.

And an altered heart,  
A long line of land or sea  
That drifting slow apart  
Unrestrained, untried,  
To some when they have  
Endeavor of their soul.

Light shafts that called together  
Days and nights of transport  
Some infant stream, might be  
Consider, each from each,  
Floating with the tide, they  
And-for end, the promised  
Hidden glory of the sea.

# MOTHERS' CONGRESS AND CHILD STUDY.

STATE ANNUAL MEETING TO BE HELD HERE THURSDAY.

Symposium on "The Child" by Authorities Along Different Lines Expected to Be the Most Interesting Feature—Home and School.

The annual meeting of the California Congress of Mothers and Child Study Circles will be held Thursday at 1:30 p.m. at the Woman's Club. The program will be particularly interesting to those who have at heart the closer relations of home and school, and the promoting of a mutual understanding and sympathy between the two important factors in the education of the child. The speakers will be: Mrs. W. R. Morgan, Carl Baurist, Summer Montague, Mrs. B. R. Baumgardt and Mrs. M. W. Watkins. Addresses will be given by Dr. H. Burr Ellis, president of the Board of Education; Mrs. W. R. Murphy, State president of the Congress of Mothers; and Mrs. W. R. Morgan.

Perhaps the most interesting feature of the symposium on the subject, "The Child," consisting of addresses by Mrs. W. R. Morgan, "At Work," Mrs. J. D. Gibbs, "At Play," Mrs. Mary F. Ledyard, "At Play," Mrs. D. W. Murphy, "In the Home," and Mrs. M. W. Watkins, "In the Home." After the rendition of the program an informal reception will be held for all teachers.

During the past year several important changes have been made in the organization, but the object remains the same, i.e., "To promote closer relations between parents and teachers upon questions vital to the welfare of children, and to bring into closer relation the home and the school, that parents and teachers may cooperate more intelligently in the education of the child in the young and impressionable years of their lives, and to assist educators and legislators in securing the best mental, moral and physical training of all children."

At a meeting of the Child Study Circle of the Federation of Women's Clubs, held in November last, in order to give a public sentiment regarding the work and enlarging its scope, a symposium was held, the subject chosen being "The Possibilities of the Child Study Circles from the standpoint of a member of the board of education, superintendent of schools, father, mother, teacher, physician, lawyer and others." The Federation of Women's Clubs and Child Study Circles, with headquarters in Los Angeles, and the work of organizing the same was begun. Membership was secured in the National Congress of Mothers, and at the annual conference of that body, held in Detroit in May, California had the honor of being the second as to number of children enrolled. Now and then a child is absent from school. He brings a written excuse, and the teacher, not being familiar with the handwriting of the child, may have no reason for regarding the excuse as genuine. The child goes and returns at proper hour for opening and closing of school. In some instances the child is absent from school between the ages of 5 and 17 years. He has visited poolrooms where he is permitted, invited and urged to play games for 5 or 10 cents. The law protects them after 9 o'clock, but the whole day was left to the discretion of parents and teachers. The valuable time and money, that is needed in the home for the education of the child, is lost in the loss of time in the poolrooms. The child goes and returns at proper hour for opening and closing of school. In some instances the child is absent from school between the ages of 5 and 17 years. He has visited poolrooms where he is permitted, invited and urged to play games for 5 or 10 cents. The law protects them after 9 o'clock, but the whole day was left to the discretion of parents and teachers.

French View of America. The Turkish bey landlord in Macedonia gets half the farmer's produce. Every village supports a number of Turkish policemen, who are really parasites. The average household pays them \$6.25 out of an income of \$50—not for protection, but for a precarious immunity from outrage.

NEW CEREAL COMPANY. INDEPENDENT ENTERPRISE. HAS NO CONNECTION WITH ANY OTHER FOOD MANUFACTORY. When questioned last evening as to whether the new California Cereal Food Company was to be a western branch of one of the great cereal concerns of Battle Creek, Mich., Secretary I. C. Winger of the new enterprise answered to the negative, saying: "The report is utterly without foundation. Some of the noted pure food experts of Battle Creek are very friendly to me personally, and have set their stamp of approval on the California venture, even going so far as to predict its ultimate success, but they are not concerned financially. The new factory at the junction of the Santa Fe and Southern Pacific railroads in southeast Los Angeles was erected with local capital, and our city office at No. 309 West First street is also under local management. You may say that the California Cereal Food Company has no connection with any other concern whatsoever."

When asked if the new factory would be in full operation by February 1 as originally announced, Mr. Winger replied that it would be, adding that he had just received news of the completion of most of the special machinery being constructed in the East. The intention of the new company is to turn out 200 cases of flakes food daily from the very start, and provided the enterprise receives the amount of financial support it deserves, to double that capacity at an early date.

Mr. Winger and his associates are thoroughly acquainted with all the intricate points in the production of cereal foods, having practically grown up in the Postum Cereal and Maltin Via factories at Battle Creek.

We've schooled ourselves on the subject of wearable wear for boys—in fact, we've taken a post graduate course, and are thoroughly posted.

Our opinion, information and experience may help you—if you ask.

Boys' suits from \$2.50 up as high as you care to go—and every one fully worth every penny of its price.

brother, the silly little sister, the ill-famed uncle. In America the bridegroom can ignore the existence of all these accessories. The young people do what they will and learn life in living it.—Harper's Weekly.

Why, of Course.

He took her hand, and she did not try to draw it away.

"One kiss," he urged.

She shook her head.

"Surely," he said, "you cannot refuse that."

"I do refuse it," she asserted with spirit.

"It is possible that I have been so deceived in you?" he asked, plaintively.

"If you think I am that kind of a girl, you have," she retorted.

"That kind of a girl" is a phrase that doesn't convey any very clear idea to anyone except that there is something wrong about it. Practically every girl objects to being considered "that kind of a girl."

Two of them exactly agree as to what constitutes "that kind of a girl." All that the average mortal knows is that it is quite bewildering. But this young man chose to put a particular interpretation upon the words.

"I certainly did think so," he said. "I note that you have studied the labor situation until you have become an enthusiastic advocate of organization."

"What has that to do with it?" she asked.

"Everything that you have must be in order," he went on, ignoring the question. "You must have union bread, union coats, union shoes, union hats, union candy, a union house, and I have heard it said that you bought a union suit on the strength of the name."

"Sir!"

"Well, no matter about that," he said hastily. "You are so heartily in favor of the union idea that I thought I'd like to know what it is."

"Of course, looking at it from this point of view, there was nothing more to be said—merely something to be done. The reasoning was unanswerable. The union idea prevailed, as it always must in such cases. When one stops to think it is wonderful how much has been union-made since the beginning of time.—Chicago Post.

"What has that to do with a kiss?" she interrupted.

"A kiss," he repeated. "Well, if a kiss isn't an essentially union affair, I'd like to know what it is."

"Of course, looking at it from this point of view, there was nothing more to be said—merely something to be done. The reasoning was unanswerable. "A kiss," he repeated. "Well, if a kiss isn't an essentially union affair, I'd like to know what it is."

"Of course, looking at it from this point of view, there was nothing more to be said—merely something to be done. The reasoning was unanswerable. The union idea prevailed, as it always must in such cases. When one stops to think it is wonderful how much has been union-made since the beginning of time.—Chicago Post.

"What has that to do with a kiss?" she interrupted.

"A kiss," he repeated. "Well, if a kiss isn't an essentially union affair, I'd like to know what it is."

# J.W. ROBINSON CO.

BOSTON DRY GOODS STORE.

239 South Broadway, Opposite City Hall, Los Angeles.

You can rely on the quality and wear of any gloves bought at this store, for our gloves come from only the most reliable makers, and every pair is fully guaranteed for fit and wear.

# Superior Gloves

cannot be found in any stock in the country. We always carry complete lines of every style and fit all gloves to the hand, so that a perfect fit is certain. We are agents for the celebrated Trefouse Gloves and have a very large stock of this superior make.

Delorme Glove comes in the leading shades of the season, three clasp, overseam and three clasp pique; also a full line of black with fancy white stitching and embroidered backs. Price \$2.00 the pair.

The Dorothy, 3-clasp Glove is very popular with us. Made of fine kid. Price \$1.50 the pair.

We show a full line of pique Suedes, 2-clasp, in the soft pastel tints. This makes a dressy street glove. Price \$1.50 the pair.

We have just received our fall import of ladies' and children's Denon; also a full line for men in Denon, Belgravia and Prizecase Havana.

A complete line of Misses' Kid Gloves; overseam and pique; \$1.00, \$1.25 and \$1.50 the pair.

One of the latest novelties is the Mosquitario Suede Glove, which comes in black and white with van dyke tops. Price \$2.50 the pair.

One hour clasp out seam, English Chatham Glove; in tan, Havana and Oxford; a superior street glove. Price \$1.50 the pair.

Famous "Wagner"

Can you afford to pay \$1.00 per week from your salary or income?

Then a magnificent new Wagner piano is yours.

The Wagner is a piano which a musician learns to love. It gives at once to a home the mark of dignity, good taste and refinement.

Any piano dealer is able to offer cheap pianos on small payments; but the Wagner, as every musician knows, is a standard instrument which no other store at present in Los Angeles is able to sell on terms so remarkable.

These pianos are intended to retail at prices which range from \$100 to \$150 more than we ask. Don't pay piano store prices, but save money by trading at the greatest credit house in the Southwest.

# SCANDALS AND WAR AT HIGHLAND ASYLUM.

Matron Creber, a Los Angeles Woman,  
Forced Out of Her Place.

Bitter Quarrel Between Attaches of the Institution  
Brings Out Startling Disclosures—Dr. Dolan Now  
Arrayed Against the Superintendent—Assistant Matron  
and Nurse Resign—More Trouble Coming.

ANOTHER scandal has broken out over the management of the Southern California Hospital for the Insane at Highland (Patton). It came to a head through a quarrel between Dr. Campbell, medical superintendent of this city, matron, who has been forced out of the institution by superintendent Campbell—Miss Creber alleges for the reason that she would not wink at cruelty and incompetency. She makes astounding charges, and the whole scandal will again be brought to the attention of the State Lunacy Board and the Governor. A general shake-up has already begun at the asylum, and the house is divided against itself. Miss Creber was formally "fired" last night. Dr. Campbell says she was a "mistake" and is talking out of spite.

PATTON, Nov. 9.—(Exclusive Dispatch.) The "Anvil Chorus" is still echoing through the corridors of the Southern California Hospital for the Insane, with Dr. Campbell medical superintendent, Dr. Dolan assistant and Miss Anna Creber of Los Angeles matron, in the limelight as star "vocalists." The present row centers in the attitude assumed by Miss Creber, who is wondering "where she is at." Dr. Campbell says she has resigned; Miss Creber says she has not; Dr. Dolan says Miss Creber had not resigned at the time she left the hospital for her vacation October 3, and he has not heard of her having done so since. And this "chorus" is echoed by Miss Mundell and Miss Cahill, until recently assistant matron and head nurse, who have resigned their positions, the former for "conscientious" reasons, stated in full in her farewell letter to Dr. Campbell, the latter declining to serve under Miss Adams, who took Miss Creber's place, when the latter left for her vacation. In a letter addressed to Dr. Campbell and in one sent to Secretary Morton of the board of managers, Miss Creber says: "I have not resigned, nor do I purpose doing so. Please inform me when my vacation ends."

This letter was taken into consideration by the board of managers at their regular monthly meeting this evening, and in opposition to Miss Creber's statement Dr. Campbell's presentation of the situation was accepted as correct. In reviewing the situation, Dr. Campbell made but a partial report of his conversation and correspondence with Miss Creber, and on this showing the board took action. Dr. Campbell was instructed to inform Miss Creber that her alleged resignation was accepted and that so far as the board was concerned the incident was closed. On the medical superintendent's request, Miss Adams, now acting as matron, was then formally appointed to the position of matron.

DR. DOLAN SCENTS TROUBLE. But this quarrel between Dr. Campbell and Miss Creber will be an insignificant event in comparison with all that it foreshadows. Miss Creber threatens to bring the matter to the attention of the grand jury and press her claims in court, if necessary. Dr. Dolan scents trouble, and in concluding a statement to a Times representative, says: "I shall defend my honor and protect my professional reputation and standing if the occasion demands it. No one has ever heard me criticize an officer of the institution, but I have not been spared." And so the chorus is sung and resung, with a fitting climax promised for the near future when the Campbell faction will be arrayed against the Dolan following in the courts.

DISCHARGED MATRON TELLS HER STORY.

SHE REPORTED CRUELITIES TO THE SUPERINTENDENT.

Starting Allegations of Suffering Caused by Incompetency and Neglect. Patient Permitted to Choke to Death and Matter Ignored.

To a Times reporter who called on her yesterday at her home in this city, Miss Creber told a sensational story. In explanation of Dr. Campbell's desire to displace her, Miss Creber roundly scored the hospital administration. She claims that Dr. Campbell's persecutions have been persistent, all dating from a conflict of authority with Supervisor Kimball, which resulted in the latter's resignation. "In an effort to protect a patient," said Miss Creber, "I was obliged to interfere with Supervisor Kimball's pleasure. This so angered Dr. Campbell that he threatened to have me removed from the institution. I have been experienced in the performance of my duties. Again and again I reported the cruel treatment of patients and culpable neglect. In every instance my report was ignored and by references to the re-

ords it will be found that these nurses were permitted to resign when they got good and ready. My outspoken remonstrances against this attitude, so destructive of discipline, has been a source of annoyance to Dr. Campbell, and had it not been for the pending investigations he would have urged my resignation some months sooner.

SHOCKING CASES.

"My position as matron necessitated continued watchfulness and there came to my knowledge much that deserved censure and correction. Numerous cases could be cited—cases of a shocking nature, and I presume Dr. Campbell thought I should close my eyes to the offenses of subordinates and so save

MISS ANNA CREBER, MATRON SOUTHERN CAL HOSPITAL FOR INSANE

trouble. But this was impossible. It was my duty to go through the female wards with the physician in charge, and when evident incompetency endangered life I could but protest. This course did not help matters between Dr. Campbell and myself. One instance will suffice to demonstrate the difficulties of my position. "Placed on the wards by Dr. Campbell was a youthful physician by the name of Orr, who was wholly without experience and in no way qualified to doctor a sick calf. In an emergency Dr. Orr was completely helpless—a helpless case of the phlegm. The case of a female patient by the forcible introduction of uterine dilators into the uterus while administering treatment, thereby producing a collapse which threatened to end fatally. My remonstrance and an appeal to Dr. Campbell, after an interview with him, elicited the reply that now Kimball is gone you are the most capable person to look after Dr. Orr and this arrangement cannot be altered. After this came the irrigation of wounds with unboiled, muddy water, packed into wounds by the physician with hairpins taken from the nurse's hair, before she was not wait for me to procure a probe.

ALLEGED NEGLIGENCE.

"There were numerous cases of neglect, among them a cancer patient to whose condition I called Dr. Orr's attention repeatedly. The whole breast and axilla was involved upon the left side, and the discharge offensive, yet the case was allowed to go on until it was necessary to order a cleansing and antiseptic wash and the dressings for the wound or let her go without. I ordered all the special diet, fed with a tube those who refused food, ordered the various applications which were needed—in fact all but the medicines prescribed, and some of those I had to order. Dr. Orr left in March, 1903. Dr. Campbell gave it out that the matron was the cause of Dr. Orr's resignation. Dr. Orr stated that he went to take a post-graduate course, but post-graduate courses won't fit men to be physicians where nature has failed to provide the brains or ability. The truth is that he was a man physically incapacitated for arduous work of any kind. He has a hollow, racking cough and frequent pulmonary hemorrhages.

"Dr. Campbell's next appointee was a consumptive, a man physically incapacitated for arduous work of any kind. He has a hollow, racking cough and frequent pulmonary hemorrhages. He must spend the most of his time out of doors or succumb to the dread reaper. Death. This is one point. Another is the contagion the patients are subjected to. Truly they are in desperate need now of a 'tubercular building' at Patton.

DEAD BODY FORGOTTEN.

"Even the dead are neglected at Patton. In the case of May Johnson, who died in May, 1903, Dr. Wilcox failed to notify the Supervisor to have her body interred, and she remained several days in the morgue, until accidentally discovered by an attendant who was sent to clean the place. Another instance which recently occurred was after the death of Annie Nelson. Her husband requested the privilege of services over her grave. The matron prepared the body and arranged for the services, but Drs. Campbell and

Wilcox had omitted giving orders to have the body coffined or the grave excavated. The funeral cortege was about to leave for the scene of burial when the state of affairs were discovered and the funeral was deferred. Circumstances compelled the bereaved husband to return to his home without paying the respectful tribute to the memory of his wife he so much desired.

CHOKED TO DEATH.

"A memorandum which reads 'Died, Mrs. Annie George, at 5:25 p.m., May 17, 1901,' reveals the story of a nurse's neglect and the superintendent's concealment of her neglect. This patient was permitted to choke to death while eating supper, by Nurse Carrie Adams, who was supposed to be caring for her. The matron had given orders to keep this patient under espionage because she was a paretic. She ate eagerly and rapidly. There was also a possibility of convulsions. These facts were given the superintendent, who dismissed the matter without the aid of Coroner and inquest or any personal investigation. He made out the death certificate as follows: Cause of death, general paresis and convulsions. It should have read 'criminal negligence upon the part of a nurse in the performance of her duty.' There are other and similar cases. This nurse is now acting as matron in this absence."

INVESTIGATION PROMISED.

The matter of the employment of Dr. Wilcox, referred to by Miss Creber, has been reported to the Lunacy Commission by former Trustee Thomas A. Lewis of this city, and an investigation has been promised. Dr. Wilcox has charge of the female wards and is in daily contact with officers, attendants and patients. In talking of the matter with the commission, Mr. Lewis draws attention to Dr. Campbell's last annual report, in which he

# RECORD TRIP TO OLD BALDY.

To Summit and Return in  
Twenty-four Hours.

Los Angeles Mountain Climbers  
Have Strenuous Day.

They Go from Flowers and Balmy  
Air to Snow and Biting  
Winds.

To leave Los Angeles with its tropical trees and flowers one morning, spend a part of the next day on the top of Old Baldy, amid the everlasting snows, and be back at your office desk ready for business on the morning of the third day certainly partakes of the strenuous life. But the feat was accomplished by a party of venturesome young men from this city, who believe they have made a new record for fast mountain-climbing expeditions. It is certain there are few places in the world where it would be possible to jump from eternal summer to eternal winter in twenty-four hours.

The party consisted of Willoughby Redman, Ross T. Hickox, Force Parker C. S. Tappan, Thornton Kinney and R. B. Dickinson. They left Los Angeles at 7:30 o'clock last Saturday morning on a Santa Fe train, which conveyed them to Ontario. Saturday night they camped at Fern Flats in Bear Valley, commonly but erroneously called Bear Flats.

Sunday morning the party scaled the precipitous side of Old Baldy in the face of a biting wind that drove snow and sleet against them furiously, and reached the summit at noon. "I was never so cold in my life as during the time we were on the top of that mountain," declared one of the party yesterday morning. "The wind blew with great violence, and every gust had an icy sting. We were glad enough to begin the descent."

On the return trip the party followed the divide known as the Devil's Back, bone down between Lytle Creek Cañon and San Antonio Cañon to Coldwater Cañon, and on to the Glen Ranch, where they remained Sunday night. Yesterday morning they drove sixteen miles to Rialto, and took the Santa Fe train, reaching the city at 10 o'clock yesterday morning.

Two members of the party, Messrs. Hickox and Redman, are members of the Sierra Club, and during the five days of their trip they were in the Kern River last summer they ascended Mt. Whitney and other high and almost inaccessible peaks. With these experienced mountain climbers for guides the Los Angeles party made much faster time than any other party possible for novices in the Alpine art.

# WORK OF NATIVE SILKWORMS.

Fine Exhibit Sent from Y. Nisiaska's  
San Diego Coconery—Equal Any Produced  
in this Country.

A Japanese, who for several months has been concentrating his attention and energies to the culture of silk cocoons, sent to the Chamber of Commerce yesterday from his little ranch in San Diego some surprising results of the silkworm's industry. In point of perfection the little silken cases equal any that have been produced in this country. They are of such a superior quality that State Commissioner Wiggins is planning to make of them a special feature at the St. Louis Exposition.

Y. Nisiaska, proprietor of the coconery, has a flourishing little colony at his place in San Diego and is of the opinion that the culture of silkworms could be made an important industry in that section, where the climate is mild and balmy. He has had many years of experience in Japan and is thoroughly familiar with the silk industry. Among the other contributions at the chamber was an exhibit of wheat apples that quite take the shine out of anything of the kind to be seen there. M. Cravie of Surprise Valley, Modoc county, sent them, and for size and color they are about the limit. Permethons from A. D. Spencer's ranch at Eagle Valley were also received and placed on exhibit.

# SLAVE BOY AND FREE.

Prof. Hopkins Makes Odious Compara-

sons in Temperance Lecture Last Night—Large Audiences.

The topic of Prof. A. A. Hopkins in the First Baptist Church last night was "Morals and Economics," which was treated in a way that delighted a large audience. He opened his address with a striking scene—the selling of a slave at auction—to illustrate the value of a slave boy as compared with the boy who is the American citizen of today. He said during slave days it was against the law to sell intoxicants to slaves and argued that as an article of merchandise they were thought the much more valuable than the young men of our country today.

Mr. and Mrs. Hopkins, assisted by Miss Masters, sang several selections last night, accompanied by Mrs. Mary Clavin of Boston. The subject of the lecture was "The Methods of Settlement."

# Hot Like Mother Made.

Our butters and canned goods and jams and jellies and beers and whis-

kies and wines, according to Prof. Wiley, are all aluminated and benumbed and glazed until we don't really know whether we are eating a sassafras saucer smothered in moth balls or a stone quarry a la Newburg. What is the self-respecting housewife to do? Who can be expected to consume raspberry tart? "We must know what we are eating," said Prof. Wiley. "Where is the individual who still rejoices in the verdancy of the tinned peas when he knows its emerald hue is due to copper—and the mines in Montana shut down at that?" (Philadelphia North American.)

# THE EVOLUTION OF SAN GABRIEL GIRL.

Among the new arrivals at the Or-

pheum last night was Miss Lillian Smith, a former Los Angeles girl. Miss Smith appeared as "Wenona," in the team of "Wenona and Frank," and did a stiff-shoot act. A number of years ago she was living on a San Gabriel ranch, where she was born. She began to shoot at the age of six years, and soon acquired a rifle facility that was fatal to all the species of small game in her neighborhood. After that she came to Los Angeles and was employed in a shooting gallery on North Main street. Here she acquired a love of adventure and the delight for a rambling life that has followed her ever since.

Presently Buffalo Bill's show came along and, against the wishes of her friends, she joined the "Wild West" aggregation. With "Oody" and his troupe she smashed glass balls and did like stunts half around the world, finally winding up in England, and shooting in a special exhibition before the late Queen Victoria, during the declining days of that great ruler's life.

Her strangest experience was at the Buffalo Exposition, where she was billed as a "Sinner Maiden" and here, during all the long summer, she posed as an Indian girl, in the native tawdry of paint, blankets and feathers. This is her first visit to California since she left it years ago, with Buffalo Bill's motley human exhibit.

LILLIAN SMITH—'WENONA'

Among the new arrivals at the Or-

pheum last night was Miss Lillian

Smith, a former Los Angeles girl.

Miss Smith appeared as "Wenona,"

## THE PUBLIC SERVICE OFFICIAL DOINGS.

## SUMMARY OF THE DAY.

The Council accepted a bid of \$500 for the Moneta-street franchise yesterday.

Bids for fire hose and for a polytechnic high school site were opened by the Council yesterday.

Tax Collector Johnson instructed reforms in license collecting yesterday.

The Council decided yesterday to increase salaries in a few cases and to allow deputies money for car fare.

The commission of architects made a formal report to the Council yesterday on the condition of the City Hall building.

The union electricians lost their lawsuit against Fred Palmer, ex-union man, yesterday.

Senator Pettigrew was in Judge Albee's court yesterday to testify in a mining suit.

Col. G. J. Griffith pleaded not guilty before Judge Smith, and his trial was set for January.

In a lawsuit between Attorney John M. Miller and his partners, Judge Ewing has decided against Miller.

In the Police Court yesterday H. M. Hodge and Will Alden were arraigned for keeping their wives in houses of prostitution.

Frank Bishop was fined \$5 for obstructing the police patrol on Main street.

## AT THE CITY HALL.

**FRANCHISE GRANTED ON MONETA AVENUE.**

**PROPERTY OWNERS OVERJOYED AT THE OUTCOME.**

Council Accepts Small Bid for the Concession, Owing to the Peculiar Circumstances of the Case—Attorney Reynolds Shows Where City Will Profit.

Property owners with holdings bordering Moneta avenue between Main street and Stauken avenue were greatly delighted yesterday at the action of the Council in awarding to Edward Golder a franchise for a double-track electric street railway line on that street.

Golder presented a bid of \$500, and it was favored by the property owners that the sum would be considered insufficient by the Council. Owing to the peculiar conditions that prevail in that locality the Council voted unanimously to sell the franchise.

Since last March the property owners along Moneta avenue have been trying to secure a street railway. Moneta avenue is not opened all the way to Stauken avenue, and it was necessary to secure a strip of land for the continuation of the street. This was comparatively easy to do, and the two antediluvians were encountered who preferred that their land should remain part of the back woods. Their opposition was finally overcome, and the property owners presented to the Council yesterday a bid for a fifty-foot strip to Stauken avenue, the city's southern boundary.

Competition in street railway franchises having ceased altogether, the Huntington companies refused to pay a cent for the franchise. They were now toward building the road. The property owners then raised a bonus of \$500, and this was tendered to the Council yesterday in payment for the franchise.

Attorney Dan F. Reynolds, who, as one of the property owners, has worked very hard to secure the granting of the franchise on Moneta avenue, made a short and effective address to the Council yesterday in payment for the franchise.

He said that there was \$44 acres of dead property that would be opened up by a railway line. That the only improvement that had been secured by the section since becoming a part of the city was the grading of Main street, which cost the property owners a large sum of money.

Attorney Reynolds instanced the case of Harvey Rice, whose \$10,000 house recently burned to the ground because there was not even a bucketful of water to extinguish the flames. He recounted the efforts that had been made to get the Water Commission to extend the mains into the district, and similar struggles with the gas and electric companies. The companies replied that nothing could be done until the section was opened up and settled. Reynolds declared that the franchise could be used to accomplish what was to grant a franchise on Moneta avenue.

At the close of this speech Sumnerland moved that the bid of \$500 be accepted. McAlister, who has been the earnest advocate of high prices for franchises, declared that the circumstances, seconded the motion. It was passed unanimously.

There is no doubt in the minds of the owners that the construction of a street railway line along Moneta avenue will greatly enhance the value of the property and open up to settlement a very excellent tract of land. It is understood that the City of Los Angeles Railway Company, which will build the road, to secure a franchise from the Supervisors which will permit the extension of the line for quarter of a mile south of the city limits, and then form a direct extension to the south city boundary of this principal street car line of the Huntington system.

## MAP SANCTIONED.

**ITEMS FROM COUNCIL SESSION.**  
Grider & Hamilton presented to the

## THE WHITE STATUE OFFICIALLY PLACED.

The Board of Supervisors passed the following resolution yesterday:

"Resolved, that the Stephen M. White Memorial Fund Committee be and is authorized to erect upon the circular plot immediately in front of the Broadway entrance of the County Courthouse a statue of the late Stephen M. White, and the clerk of the board be directed to give notice to said committee accordingly."

This resolution was presented by the Finance Committee of the Supervisors, Messrs. Patterson, Wilson and Gramham, to whom the following communication had been referred:

"Board of Supervisors: Gentlemen: I beg to call your attention to the fact that the Stephen M. White Memorial Committee is now ready to proceed in the erection of a monument on the Courthouse grounds in accordance with

Council yesterday a revised map of their Vernon Park tract and secured unofficial sanction of their subdivision. The blocks are still over 1200 feet long, but all the small and irregular lots have been eliminated from the drawing.

Councilman Davenport was quite exercised yesterday because the Council took action deposing Edward Burgoine, the janitor at the City Jail. Burgoine was Davenport's appointee.

Chief Elton reported that the janitor was not doing good work. Yesterday the Council passed an ordinance doing away with the position of janitor and adding \$15 a month to the salaries of the chief jailer and the head patrol-wagon driver, who will be expected to see that the janitor work is done in future.

Sumnerland voted with Davenport against the ordinance. He said it is ridiculous that a city of the size of Los Angeles should have a janitor at the City Jail.

Fire hose caused another flurry in the Council yesterday. Bids were opened at the morning session, and at the afternoon meeting City Clerk Leand reported that some makes of hose had been shut out because of a mistake in publication. He said "cotton jacket" hose had been asked at the request of the Chief instead of "cotton-lined" hose.

The record showed that the Council had directed an advertisement for plain "fire hose," admitting all makes and brands. The Finance Committee is considering the point. All bids may be rejected and a new advertisement ordered.

The Tufts-Lyon Arms Company and the William H. Hoege Company applied to the Council yesterday for a modification of the ordinance regarding the storage of calcium carbide, and the matter was referred to a committee. The carbide is not taxed as a shipment of the carbide is permitted in 100-pound packages and that inside the fire district the carbide is to be stored in 200 pounds of this material.

A franchise for a spur track across Colton street and along Colton street was granted to the Times-Mirror Company yesterday. The term of the franchise is thirty years.

It was brought to the attention of the Council yesterday that the Free Labor Bureau could be advantageously placed at the Good Samaritan Mission, on San Fernando street. The city is considering the point. All bids may be rejected and a new advertisement ordered.

The Los Angeles Realty Board petitioned the Council yesterday to set aside \$75 a month to be expended by the governing committee of the Board in clearing vacant lots of weeds. The committee recommended that the Board should be authorized to expend \$75 a month for the support of this bureau.

The Los Angeles Realty Board petitioned the Council yesterday to set aside \$75 a month to be expended by the governing committee of the Board in clearing vacant lots of weeds. The committee recommended that the Board should be authorized to expend \$75 a month for the support of this bureau.

early meritorious. It was also determined to give sixteen employees of the city from \$15 to \$15 a month for car fare. The salary increase amounts to \$100 a month and the car-fare allowance to about \$200, making a total increase in expense of \$200 a month.

Boyle Workman, Deputy City Treasurer, will have his salary increased from \$125 to \$150 a month; John Kennedy and A. C. Roques, bond clerks in the Treasurer's office, each from \$80 to \$90; Frank Palomares, assessment clerk, from \$10 to \$125; Miss W. Barwell, assistant assessment clerk, from \$60 to \$75; Miss Maggie E. Thomson, clerk's stenographer, from \$40 to \$50; Dwight Fargo, assistant oil inspector, from \$75 to \$85; W. A. Woods, bookkeeper for the Street Superintendent, from \$30 to \$50.

It was intended to pass the ordinance yesterday afternoon, but it was found impossible to prepare the necessary papers in time. The ordinance will be drawn during the week and presented at the next session. Councilmen declare that no further rises in salary can be considered at this time.

**OFFICIALLY SAFE.**  
BUT FLOORS NEED BRACING.

A formal report regarding the safety of the City Hall building was made yesterday by the special commission, consisting of Architects John Parkinson and John C. Austin and Building Superintendent Julius W. Krause, which was appointed to examine the tower and library floors. The commission of architects has the following to say in relation to the City Hall:

"We, the commission appointed by your honorable body to report on the stability of the tower and library floors of the City Hall building, have examined the same and are of the opinion that the tower is perfectly safe. We would recommend, however, that the balustrades projecting from the face of the tower be properly secured to the main tower walls."

"We find that the library floors are not strong enough to sustain a load imposed on them; we would therefore recommend that there be a line of metal columns and steel beams placed along the center of the span to remedy the defect, extending the columns down to the ground and the beams to the floor above. We further recommend that the columns be extended to the underside of the library ceiling, and that beams be placed upon the same to carry the floor above, which could then be used for storage purposes. The tower is now used for storage, but is unfit for the purpose, the floors not being of sufficient strength."

**MANY HOSES FILED.**  
FIRE HOSE AND SCHOOL SITE.

The following bids for furnishing the city with 5000 feet of 2½-inch fire hose were opened by the Council yesterday:

"Paramount," 80 cents per foot; J. W. Hellman, "Glenwood Brand," 70 cents per foot; Warren & Bailey Manufacturing Co., 60 cents per foot; "Brant," 90 cents per foot; The Cass & Snurr Bros. Co., "Princeton Jacket," 80 cents per foot; C. Ducommun, "Fargason," 90 cents per foot; "Monitor," 80 cents per foot; "Los Angeles Special Jacket," 5000 feet at \$3500; "Trojan Jacket," 80 cents per foot; "Hargrave," 80 cents per foot; "Reliance," 75 cents per foot; "Guardian," 85 cents per foot; L. B. Bugh & Sons, "Master," 80 cents per foot.

The bids were referred to the Finance Committee. Hereafter they have been referred to the Commission in conjunction with a Council committee, but owing to a squabble over the bids, the Finance Committee and the Board of Health were told to find them out for themselves. This was done by the decision of the other Councilmen.

**REFORMS MADE.**  
LICENSE-COLLECTION SYSTEM.

Acting on suggestions made at a conference of city officials last Saturday regarding the collecting of license collections, Tax Collector Johnson inaugurated some reforms in his office yesterday that will undoubtedly improve the service and provide a safeguard for the city and further check upon the collections.

It was not found practical to entirely abolish the practice of giving receipts, but all receipts hereafter issued will have a notice stamped across the face, "Not good after five days," and the receipts will be given to the collector at the Tax Collector's office and obtain the corresponding license.

The licenses will be given to the collector at the Tax Collector's office and obtain the corresponding license. The licenses will be given to the collector at the Tax Collector's office and obtain the corresponding license.

B. Bugh & Sons, "Master," 80 cents per foot.

The bids were referred to the Finance Committee. Hereafter they have been referred to the Commission in conjunction with a Council committee, but owing to a squabble over the bids, the Finance Committee and the Board of Health were told to find them out for themselves. This was done by the decision of the other Councilmen.

**REFORMS MADE.**  
LICENSE-COLLECTION SYSTEM.

Acting on suggestions made at a conference of city officials last Saturday regarding the collecting of license collections, Tax Collector Johnson inaugurated some reforms in his office yesterday that will undoubtedly improve the service and provide a safeguard for the city and further check upon the collections.

It was not found practical to entirely abolish the practice of giving receipts, but all receipts hereafter issued will have a notice stamped across the face, "Not good after five days," and the receipts will be given to the collector at the Tax Collector's office and obtain the corresponding license.

The licenses will be given to the collector at the Tax Collector's office and obtain the corresponding license. The licenses will be given to the collector at the Tax Collector's office and obtain the corresponding license.

to give sixteen employees of the city from \$15 to \$15 a month for car fare. The salary increase amounts to \$100 a month and the car-fare allowance to about \$200, making a total increase in expense of \$200 a month.

Boyle Workman, Deputy City Treasurer, will have his salary increased from \$125 to \$150 a month; John Kennedy and A. C. Roques, bond clerks in the Treasurer's office, each from \$80 to \$90; Frank Palomares, assessment clerk, from \$10 to \$125; Miss W. Barwell, assistant assessment clerk, from \$60 to \$75; Miss Maggie E. Thomson, clerk's stenographer, from \$40 to \$50; Dwight Fargo, assistant oil inspector, from \$75 to \$85; W. A. Woods, bookkeeper for the Street Superintendent, from \$30 to \$50.

It was intended to pass the ordinance yesterday afternoon, but it was found impossible to prepare the necessary papers in time. The ordinance will be drawn during the week and presented at the next session. Councilmen declare that no further rises in salary can be considered at this time.

**OFFICIALLY SAFE.**  
BUT FLOORS NEED BRACING.

A formal report regarding the safety of the City Hall building was made yesterday by the special commission, consisting of Architects John Parkinson and John C. Austin and Building Superintendent Julius W. Krause, which was appointed to examine the tower and library floors. The commission of architects has the following to say in relation to the City Hall:

"We, the commission appointed by your honorable body to report on the stability of the tower and library floors of the City Hall building, have examined the same and are of the opinion that the tower is perfectly safe. We would recommend, however, that the balustrades projecting from the face of the tower be properly secured to the main tower walls."

"We find that the library floors are not strong enough to sustain a load imposed on them; we would therefore recommend that there be a line of metal columns and steel beams placed along the center of the span to remedy the defect, extending the columns down to the ground and the beams to the floor above. We further recommend that the columns be extended to the underside of the library ceiling, and that beams be placed upon the same to carry the floor above, which could then be used for storage purposes. The tower is now used for storage, but is unfit for the purpose, the floors not being of sufficient strength."

**MANY HOSES FILED.**  
FIRE HOSE AND SCHOOL SITE.

The following bids for furnishing the city with 5000 feet of 2½-inch fire hose were opened by the Council yesterday:

"Paramount," 80 cents per foot; J. W. Hellman, "Glenwood Brand," 70 cents per foot; Warren & Bailey Manufacturing Co., 60 cents per foot; "Brant," 90 cents per foot; The Cass & Snurr Bros. Co., "Princeton Jacket," 80 cents per foot; C. Ducommun, "Fargason," 90 cents per foot; "Monitor," 80 cents per foot; "Los Angeles Special Jacket," 5000 feet at \$3500; "Trojan Jacket," 80 cents per foot; "Hargrave," 80 cents per foot; "Reliance," 75 cents per foot; "Guardian," 85 cents per foot; L. B. Bugh & Sons, "Master," 80 cents per foot.

The bids were referred to the Finance Committee. Hereafter they have been referred to the Commission in conjunction with a Council committee, but owing to a squabble over the bids, the Finance Committee and the Board of Health were told to find them out for themselves. This was done by the decision of the other Councilmen.
